

Face Shield Design

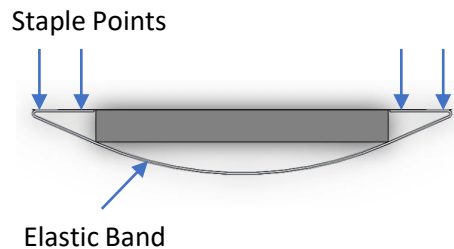

CLEAR POLYESTER FILM

Material – Clear Polyester Film, PET, PETG, Polycarbonate sheet - 150 to 250 Microns
Laser or Die Cut sheet with a template.
Anti-fog coating would be bonus.

FOAM

Material – Polyurethane Foam/Sponge 25X25X230
Select the foam with Adhesive backing or use a double sided Tape (preferably 3M Tape)

ELASTIC HEADBAND

Material – Elastic fabric band 25mm wide and 400mm long (approx.)
Staple using a large Stapler Pins
